

VCE Dance

VCE Dance provides opportunities for students to explore the potential of movement as a means of creative expression and communication. In VCE Dance students create and perform their own dance works as well as studying the dance works of others through performance and analysis. Dance is a combination of both theory and practical work.

VCE Dance prepares students to be creative, innovative and productive contributors to society as professional and social performers and makers of new dance works. The study also prepares students to be discerning, reflective and critical viewers of dance and provides pathways to training and tertiary study in dance performance and associated careers within the dance industry.

Unit 1 & 2	Unit 3 & 4
