AUR20720 Certificate II in Automotive Vocational Preparation

Campus Location	Deakin Trade Training Centre (MSC)
Delivery Mode	MSC Timetable
Program Length	2 years
Credit	Year 1: Unit 1 & 2 Year 2: Unit 3 & 4 No Study Score 10% Increment towards ATAR

COURSE DESCRIPTION

This qualification reflects the role of individuals who perform a limited range of tasks relating to identifying and inspecting mechanical and electrical components and systems of light vehicles, heavy vehicles and motorcycles. This qualification also covers the skills and knowledge required to perform minor maintenance and repair of an automotive vehicle body. You will gain base-level mechanical skills from both theory and practical training.

Assessments include practical and written tasks, and completion of workbooks.

YOU WILL LEARN:

- How to maintain and service vehicles
- How to identify, use and maintain automotive tools
- How to dismantle and assemble engines
- How to remove, test and refit vehicle batteries
- How to remove and replace wheels, tyres and brake assemblies
- How to construct and test basic electrical circuits

ARE YOU SUITABLE?

- Do you spend your spare time tinkering on cars or anything with an engine?
- Do you enjoy hands on activities?
- Do you want to understand how machines work?
- Do you like using tools?
- Do you enjoy solving problems?

CAREER OPPORTUNITIES

- Automotive Electrician
- Automotive Mechanic
- Detailer
- Diesel Mechanic
- Motorsports Technician
- Panel Beater
- Spare Parts Interpreter
- Motorcycle Mechanic
